

# Are you organic, farming with low inputs or wanting to work closer with nature?

## We are here to help!

- Unsure how the new CS and SFI farming schemes are going to impact your farm?
- Confused about what new options and opportunities may be available to you?
- Worried about what to do next?

*"We had a really valuable and practical session with Karen about the new farming transition arrangements. She explained clearly how they operate and succinctly identified the key features which are most beneficial for our farm."*

**Butford Organics**

*"The fact that the webinar was tailored to my type of farming simplified things a lot as it meant that I did not have to read the entire SFI literature to find the bits relevant to me."*

**Mark**

**We are farming advisors from the Soil Association Farming and Land Use team and can offer FREE independent advice via in-person on farm workshops, online webinars and 1:1 discussion either on farm or virtually\*.**

### Want to find out...

- Where organic and low input farming fits in with the changes in support payments.
- What the components of the environmental schemes are.
- How you can make the best use of both Countryside Stewardship (CS), Sustainable Farming Incentive (SFI) and potential green finance opportunities.
- Identify how, what and when you may need to adapt your business.
